Voice of Islam

VOICE OF QURAN

When there comes Allah's help and the Victory, [1] and you see people entering Allah's (approved) religion in multitudes, [2] then pronounce the purity and praise of your Lord, and seek forgiveness from Him. Surely He is Ever-Relenting. [3]

(Surah An-Nasr)

VOICE OF HADITH

HOW DID ISLAM SPREAD IN SUBCONTINENT?

someone stay unaware of this undeniable truth.

DEAR READERS
Did you know before that voice of Islam had entered in subcontinent years before Muhammad bin Qasim arrived here?

I suppose you never. But the reason is that you did not touch the history of this region, otherwise how can

Let me tell you something about your past. The pure drops of Islam started

dropping on this venerable land even since the end of first century Hijri. Although In the regions of northwest Muslims interred in the leadership of Muhammad bin Qasim and conquered the remits of Sind and Punjab. But Inhabitants of the southern areas were blessed

With the treasure of Kalma Tayaba by those Arab Merchants who had won the hearts of natives due to their good characters they had in their souls and bloods. They had strong ties with these Indians.

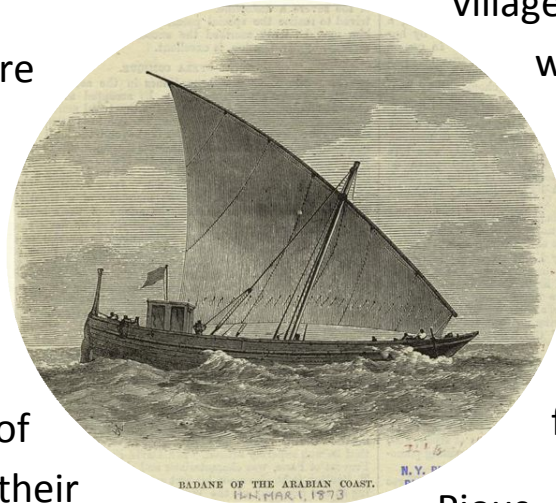

You can guess it from statements and books of those tourists who visited this area in second and third

Century like Ibn Howqal “ ابن حوقل ”.

They have written that there the Muslims were respected a lot. They had their own villages and Mosques which were crowded every time by those who used to come here to gain education from these

Pious merchants who were scholars as well.

The spiritual voice of Islam and its true message was distributed in this region by these readers. Inhabitant of Maldives, Gujarat, Malabar and other areas embraced Islam through the efforts of these men of God.

According to a Muslim merchant "Sulaman"

that these Indians who embraced Islam were in large

According to a Muslim merchant "Sulaman" (237H/851AD) these traders had good relationships with local rulers. In Gujarat there was a special court for Muslims which was being sponsored by the local government

(237H/851AD) these traders had good relationships with local rulers. In Gujarat there was a special court for Muslims which was being sponsored by the local government. The chief of this court was called "Honarmand" "ہنرمند". There the cases of Muslims were being settled according to Sharia.

Famous English author professor W Arnold also admitted in his well-known book "Preaching of Islam"

number. There was not even a piece of cruelty or violence being practiced in this conversion of religion.

These true anecdotes of Past guide us toward the lesson that our actions play a vital role in spreading of Islam. If Islam could spread by the actions of our elders in the past then why not so today? The answer is "we" because we are the representatives of Islam practically.

Our today's voice of "VOI" is to take care of your actions because it sheds deep effects on others.

BALANCE

Written by: Abid Rahim

Equilibrium is the most important thing; let it be in talking, attitude or institutes. Life is a balance and it rounds around it. The system of universe is going on following the rules of balance. Decrease or increase of anything fozzles from the body of a man to the walls of chambers. No religion has emphasized on balance more than Islam. Islam teaches where can we weep and how much, where can we laugh and how much. We always see, with decrease or increase of anything in our body, our body becomes discomfort. In

both of these situations we become perturbed. When the only son of our Prophet Muhammad (S A W) Ibrahim (R A) died, Muslims learnt that blowing tears in such tragedy is not prohibited in Islam. But when the matter increases to beating the chests and lugging the hair, it will be called infraction. Similarly on the day of Eid Messenger of Allah (S A W) showed Aisha (R A) war game of youth behind his blanket. Then Muslims learnt that recreational activities are not illicit in Islam. Despite of so balanced system and deen of the world we are still

deprived from balance, which causes rise and fall of the nations. In sadness we become so languid that we vitiate ourselves and defamation of the deen. And in happiness we become so emotional that we cross the limits. Rasul Allah ﷺ said:

oh Ali, if two people come to ask you to judge between

them, do not judge in the favor of first until

you hear the word of second in order that you may know how judge.”

Rasul Allah ﷺ did not prohibit us to be in the favor of downtrodden العياذ بالله but he ﷺ teaches us to keep equilibration in our

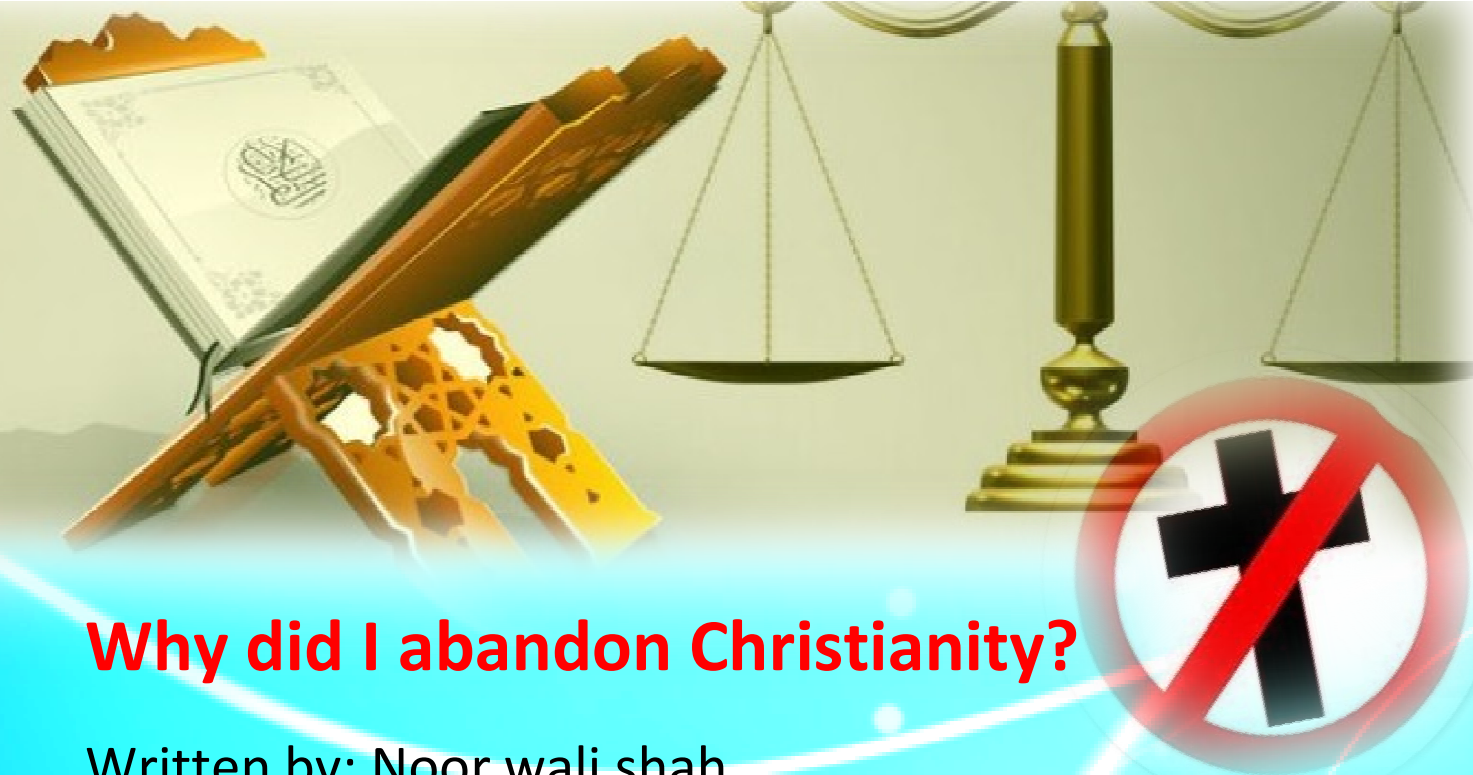

actions. In Islam the circle of balance is not limited to actions. But Islam teaches the lesson of balance in every part of life. So we must not cross the limits in happiness neither in sadness. Have grip over the balance everywhere.

In Islam the circle of balance is not limited to actions. But Islam teaches the lesson of balance in every part of life

We must not leave the lap of equilibration. A

person who is not trying to keep balance in everything, the sadness and impulsiveness are written in his destiny and hap.

Why did I abandon Christianity?

Written by: Noor wali shah

Some days ago I was lucky to participate a spiritual ceremony for a missionary who had embraced Islam and recited the pure words if Kalma Tayaba. There was a look of happiness on the audience. Their faces were shining and the brightness of pleasure was visible on their foreheads.

The story of Christian Missionary was full of wonderful and interesting events. He was accompanied with a personality who used

to be a hardcore missionary and apostate dozens of Muslims and guided them toward the hellfire. But this is the miracle of Quran to magnet the enemy as well toward itself.

He commenced his story saying that he had been the head of Pakistan for an international missionary group. They used to convey the message of church across the world. He said that some years ago I met a Muslim couple and tried my best to convert them to Christianity. I

pledged myself strongly and made my mind up completely to throw the seeds of doubts

There I got shocked greatly because my interior feelings and emotions were written

What I did for that was that I claimed in front of them that I can proof undoubtedly that Quran is not a holly book revealed from Allah but is a man-made text.

and uncertainty about their religion into their minds if they are not ready to leave Islam.

The young Muslim couple got reluctant about Quran and was near to slip down from the height of heavens into the depth of hell. On the other hand I searched a lot if I can find some weak points in Quran. I got a copy of it from elsewhere and commenced its study critically. I spent nights to accomplish this goal until I reached the Ayah

ود كثير من اهل الكتاب لو يردوكم من بعد ايمانكم

there word by word. Because I and the other missionaries were busy to apostate Muslims from their religion and we all were deny this due to that Jealousy and hostility we had in our hearts for Islam. I closed the holly Quran and brought it to my wife who was sitting in the next room. I showed her this Ayah and asked her whether it was true or wrong? She looked it again and again. Finally she answered that I am sure that there might be a Christian movement in the past by which numbers of Muslims were converted to Christianity. Tue to this

dangerous tragedy Islamic Scholars interpolated this Ayah in Quran so that the coming generation would be safe from embracing

was silence everywhere. The audience were figuring the words coming out of his mouth which were as precious as pearls and worth

I tried to assemble my thoughts and ideas to make any decision on this most important and sensitive turn of my life. Either I had to recite the words my wife had recited before me or I had to get back to the Christian world. Finally I succeeded to bring the pure words of Kalmah Tayabah to my tongue and recited that “La Ilaha Illalaho Muhammad Rasool Ullah

Christianity. Then whenever they will be invited to accept Christianity they will answer them immediately that we have been informed 14 years ago in Quran that these Ahlkitab would try to misguide you “Muslims” toward the hellfire.

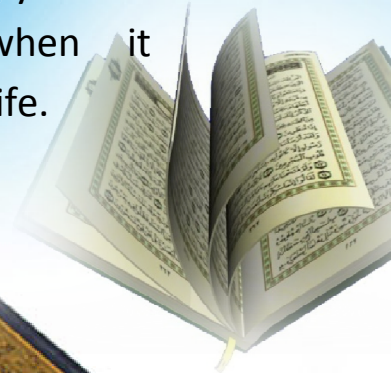

The new Muslim missionary continued his speech. There

to be written by golden water. He said that I contacted our organization about this Ayah but was failed to receive a satisfying answer. Eventually I started research by myself. I was confused much when I found that this Ayah is present in each and every copy of Holly Quran. There was not even a difference of one alphabet.

One day I was discussing with my wife in regard to this Ayah. Unexpectedly she recited Kalma Tayabah. Her words gave me a numb feeling and my mouth hung open without saying anything. Everything I felt became weird. " the beliefs and thoughts I hate the most became nearer to me. The one who a hardcore christen missionary so for yesterday was now a strong devoter and true believer of Islam.

I thought back about my life full of sins and misconceptions and determined strongly to utilize my coming moments of life to convey the message of Islam

and to serve it whole heartedly. Al hamdulillah with the grace and mercy of Allah even then I have been busy in this holy purpose several christens have embraced Islam on my hands due to these pour struggles. I would like to pray to Allah to accept my work and to reward me with the pure and holy words of KalmaTayaba when it comes to end up my life.

LEARN ENGLISH SPEAKING EASILY

Written by: Farid Ullah

Dear readers you don't know what is the second point I am going to tell you for learning English speaking easily. The second point is very simple and very easy to follow and that is not to study grammar rules. Yes of course it is surprise to you because your teachers told that you must study grammar rules. My dear for speaking you don't need to learn grammar rules. You need grammar rules for reading not for speaking because during reading you have much time to think

about grammar rules even you can take a grammar book and search anything but during speaking you do not have much time to think about grammar. If a person asks you a question you have to reply immediately. You will not have time to think about grammar. If you think about grammar during speaking you will learn much slower and you will understand much slower because you will think for example about adjective, adverbs and what is the usage of it by this way you will learn speaking very slowly.

Just ask yourself you have been studying grammar rules for many years and you have learnt a lot of grammar rules can you speak English easily, quickly and fluently? If the answer is not then take this idea and take grammar aside. Just start speaking by speaking you will improve your fluently and you will learn speaking quickly and

easily.

You have seen the baby he does not learn grammar rules. He just starts speaking and in a short time he learns speaking although he does not know even one rule of grammar. Dear reader do not worry about grammar spent your time on speaking you will learn it quickly and easily.

The companions of our Holly prophet

صلى الله
عليه وسلم

Hadir Ali

In every era Allah sent his messengers for the guidance of people and this system finished on our Holly Prophet “Hazrat Muhammad (PBUH). While he was bestowed with “Nubuwwah” the entire world was covered with darkness and ignorance. Holly Prophet (PBUH) preached Islam and told the people about the demands of our one and only Lord

Allah. A lot of people accepted Islam and paid attention to the messages of the Holly Prophet (PBUH). Those people are called companions or Sahaba رضى الله عليهم اجمعين.

The companions of our Holly Prophet were always ready for any sacrifice for Islam. They spent their lives according to the

orders of Allah. They helped each others and they established a scarce and great example in the time of Hijrah. They endured a lot of difficulties on the way of Islam. They participated in every battle which took place between Muslims and non-Muslims. And they conquered with the blessing of Allah in every battle. According to the saying of our Holly Prophet the companions of our Holly Prophet are like stars whoever of them we follow we will get to the right path.

The companions of our Holly Prophet fulfilled every command of Allah and

every message of Prophet and they opted the way Allah wants so. Therefore Allah awarded them in Quran and said “رضى الله عنهم و رضوا عنه” that Allah is pleased with them and they are pleased with Allah.

So we should obey the orders of Allah and messages of our Holly Prophet like the companions of our Holly Prophet obeyed him and we should make them ideal for spending life.

The key to prosperity

Written by: Islam ul Din

Everyone wants to prosper here in the world and in the hereafter. so that is the key to prosperity. It has been long almost seventy years that Pakistan was established. We are still incapable to decide the path to follow and the system to adopt and the ideology to accept. The core reason behind calamity faced by Pakistan and other Muslim countries is the contradiction between their ideology and the government implemented in those countries. To prosper we have to change our system and have to apply Islamic rules in our Muslim countries. This is the only way to stay happy, satisfied in this world and in the hereafter. Because

the word Islam means peace in Arabic language. And it is a religion which was sent down in order to provide man a life full of endless mercy, peace, tranquility and compassion. All those are mentioned in this verse (O ye who believe enter into Islam wholeheartedly; and follow not the footsteps of the Evil one; for he is to you an avowed enemy). As it is stated in this verse that the only way of the security of people to accept Islam and enter it wholeheartedly and practice the ethics of Quran. And Allah damns the terrorism and mischief in the world and prohibits people from sins, rebellion, killing, shedding blood, tyranny, cruelty and

any other evils. Allah states (But those break the covenant of Allah, after having plighted their word thereto, and cut asunder those things which Allah has commanded to be joined, and work mischief in the land on them is the curse for them is the terrible home!(Ar Rad).So Allah damns them here and there will be a terrible home for them on the Day of Judgment. According to the Quran killing of any innocent person is prohibited. Allah says if anyone slew a person unless it is for murder or for spreading mischief in the land. It would be as if he slew the whole people. Islam does not allow anyone to disturb other person and introduced commands that prevent brawl and conflicts between the people. Talking against one and other even thinking of bad things about other are prevented in Islam. these were some examples about calmness and satisfaction in Islam.

Health care

The health of an individual in Islam is highly valued and it is a responsibility of Islamic state towards all its citizens rich, poor ,Muslim, and non-muslim as our prophet (peace be on him);'the imam (khalifah) is the caregiver and hr is responsible for his people'.(al-bukhari) .in the era of our prophet (P.B.U.H) there was a tent established in masjid where all the treatment necessities were being provided free of any charges, and it was being run by woman named 'Rofydah,.and in the period of khelafah there was a hospital known by bemaristan in which all the treatment facilities were provided and were two nursing personnel for every patient to serve him, and after treatment he would be given some pieces of gold to avoid him from laying his hand in front of other. And he would not need to work as soon as he left.

Well being

In Islamic state the basic necessities were the responsibility of state. It was responsible to provide food, shelter and clothing to those who cannot afford it. I am going to exemplify it by two stories.

First one

Caliph Abu Bakker was informed about an old blind woman outside of Medina. She needed a servant. Despite he was caliph he started going to her every day to cook food, clean the house, wash the cloths and bring the water for her. That was the real sacrifice. That is why he got dignity and high rank in the eyes of Allah.

Second story

Once caliph Omar (ra) was revolving in the streets of Medina to find out is in need to me. Suddenly saw a woman making her children's sleep without dinner. He returned and took some bags of wheat and food from the treasury of Bait-ui-Mal ,and

carried on his own back all the way to her children's. His servant offered him to carry for him. But he refused offer by saying (will you carry my sins and responsibilities for me on the Day of Judgment). This is the real image of Islam which is showed by those kinds of people. They were merciful for human being even for animals as well. Our presidents pledged that they will bring prosperity in Islamic countries but what puts a shadow of doubt on their claims is their pursuing behind democracy while we have been seeing what democracy provided us for seventy years. So I want to convey my message to all Muslim brothers across the world to work hard for gaining Islamic rules in the world.

May Allah succeed us in this purpose. Amen.
